Facilitator: Huzaifa Huzaifa

Objective: Preparing the pitch

Meeting Place: Microsoft Teams

Start time: 6:50 PM

End time: 7:50 PM

Attendees

- Alexander Wiegel
- Huzaifa Huzaifa
- Shazeem Ashar

Meeting Notes

Agenda

- decide who writes the protocol
- decide on a weekly meeting time
- make sure everyone has the correct (versions of) tech stack installed
- prepare Git + GitLab
- talk about the possible use of design patterns
- talk about next steps and assign tasks (one of them: upload protocols to GitLab)

Decisions
- Huzaifa will write protocol this week
- Weekly meeting on every Friday at 11AM - 12PM
- We decided to use mySQL as a database
- We decided to make 2 branches main and development. Each member can create its own working branch from development. Create pull requests for merging in main.
- For the backend we decided to use MVC, and for the frontend we proposed either to use MVVM or MVC design pattern. Alex will ask the professor for advice

Discussion & Decision

- we took a look at our meeting notes and decided on a weekly meeting time

Next Steps (can always be seen on Trello)

- Alexander will work on designing DB schema
- Shazeem will work on the front end design and mockups.
- Huzaifa will create a structure for the backend
- attend the next meeting
- ask professor for advice on the DB and on the usage of Docker or VirtualBox
- make a git folder for the team notes and one for the configuration/script for the VM
